

OFFICE of
UNDERGRADUATE RESEARCH
& COMMUNITY OUTREACH

March 12, 2020

In response to the recent University of Miami Coronavirus Update directives, the Office of Undergraduate Research & Community Outreach (UGR) is cancelling the 2020 Undergraduate Research, Creativity, and Innovation Forum (RCIF) previously scheduled for March 31. We all were looking forward to students showcasing their research; however, our decision is guided by UM's priority to safeguard the health and welfare of all members of our University community.

UGR appreciates the ongoing contributions to research by our students and faculty mentors. We intend to recognize the over 100 undergraduates from all UM colleges and schools that applied to present at RCIF. Stay tuned!

From the entire UGR team, we thank our students for their dedication to research past, present, and future.
